| 3 | Basic Usage | 5 |
| 4 | Advanced Usage | 7 |
| 5 | License | 9 |

1.1 To download and install the Python package:

- `python -m pip install Blah`

1.2 To run the demo:

- `python -m Blah --demo`

CHAPTER 2

How to Install Blah

It's on pypi.org so just use `pip`.

CHAPTER 3

Basic Usage

Run it from the command line.

CHAPTER 4

Advanced Usage

Start a server from the command line and then connect with your browser.

CHAPTER 5

License

Do whatever you want but don't blame me for the consequences.
